

BIOFACH2023
into organic

At Biofach 2023, we're teaming up with industry experts & certification bodies for a **value-offering** session on:

How to get certified faster?

- Overcoming challenges in certification and speeding up the certification process.
- Organising and presenting data for certification.

14.00 to 16.00

15th (Wednesday)
February 2023

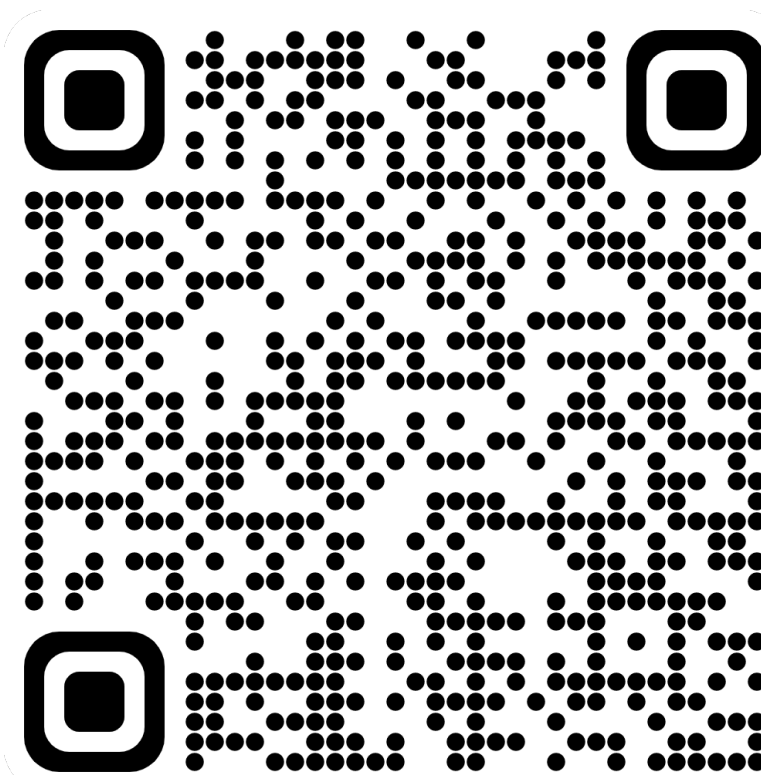

PRAGUE room on
level 2, NCC Ost

*Limited seats. Free private consultations from 09.00 – 18.00. Detailed agenda in the registration form.

Agenda

Session 1

14.00 to 14.45

Certification process & landscape

14.00 to 14.30

Topics:

- Relevant Standards/Labels in 2023 in each scope (Sustainability, Carbon, Organic, etc.)
 - Value addition and benefits of getting certified with these standards.
 - Applicable regions, industries, etc.
- How to select the correct certification standard/Label for your product and company? (Eg based on target market, type of product, current stage of the process, documentation, operation, etc.)
- How to get certified, and what is the process? Detail of each step in the process, Average time consumed in each step, and average total time.

Q&A

14.30 to 14.45

*15 mins break

Session 2

15.00 to 15.45

Common issues, standard solutions & technology implementation in certification

15.00 to 15.30

Topics:

- Challenges in each step of certification that slow down the process and its solution.
- How can technology solve your certification needs and speed up the process?

Q&A

15.30 to 15.45

Value offering

Free consultation for Biofach 2023 attendees to identify critical issues and possible solutions in the certification process.

From 9.00 to 18.00 at PRAGUE room on level 2, NCC Ost on 15th February 2023
